ANY TIME IS THE RIGHT TIME.

Life happens. Morning, noon and sometimes night. Not just weekdays, but weekends and holidays, too. When you need to see a doctor – and fast – Catholic Healthcare West (CHW) Urgent Care is here for you and your family.

THE RIGHT FIT FOR YOUR FAMILY.

People all over the Valley trust CHW Urgent Care because of the high quality of care they receive from our compassionate staff. For everyday health problems that can happen at any time, CHW Urgent Care is the right fit, for every member of your family.

THE RIGHT EXPERTISE.

From a bad cough or a serious sprain, to a case of the flu or asthma. It may not qualify as a life-threatening emergency, but it does require immediate attention. At CHW Urgent Care, you're seen and treated right away by a board-certified physician and certified registered nurses with the right expertise and resources. Our centers are also designed to care for pediatric patients, as well as more serious conditions.

THE RIGHT RESOURCES.

There's more to each CHW Urgent Care center than meets the eye. Each center has access to the latest in diagnostic, laboratory and radiology technology. And each CHW Urgent Care is staffed by certified radiology and patient care technicians who are truly connected to your care. As part of CHW's electronic network, radiologists can access your test results from anywhere in the Valley. The Gilbert and Ahwatukee centers also perform routine mammography services. Of course, as part of the CHW network, your physician has direct access to a wide range of specialists.

If your condition is more serious than anticipated, the CHW Urgent Care staff will coordinate with the nearest CHW Emergency Department to provide the seamless transfer of your care.
